SAKURAJIMA-KINKOWAN GEO PARK is...

A Geopark is a "park of the earth" . It' s a place where we can timelessly enjoy the connection between ourselves and the earth. Its natural attractions include the towering mountain and the deep, blue bay. These features were created over millions of years. The Sakurajima-Kinkowan Geopark offers you awe-inspiring scenery, tours, events, programs and local specialties. Enjoy your time here to the full!

4 Yuno Port

The combination of the stone hedge, port, and trees creates a special type of beauty. It is a great place to take a stroll. You can also see how people live on the volcano here.

5

6

7

8 Shioyagamoto Port

Hot springs in the seabed make the ocean surface a mystical glittering emerald green. The level of vegetation varies because the lavas on either side of the port are from different periods.
